DETAILED ACTION

The following action is in response to the amendment filed for application 10/605,945 on November 7, 2005.

Allowable Subject Matter

Claims 1, 4-9, 16, 19-30 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the method for controlling an automatic transmission as claimed, and particularly including automatically downshifting to a lower gear, when it is determined that the vehicle acceleration is above a vehicle acceleration threshold, the predetermined amount of time has passed since a previous downshift, the vehicle speed is below a predetermined speed, and including the remaining controls of claims 1 and 16, respectively. The present invention also particularly includes inhibiting transmission upshifts when it is determined that automatic engine braking is desired, and the accelerator pedal is not engaged, and including the remaining controls of claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
